Main Objective

to enhance the creative and innovative potential of researchers **holding a PhD**, wishing to acquire new skills through advanced training, international, interdisciplinary and inter-sectoral mobility.

Key messages

- an original and personalised research project
- to foster excellence through training and mobility
- to equip researchers with new skills and competences in order to identify solutions to current and future challenges

Who is eligible

- **postdoctoral researchers**
- mobility rule
- Supported researchers can be of any nationality
 - Global Postdoctoral Fellowship: nationals or long-term residents of EU Member States or Horizon Europe Associated Countries
- supported researchers must have a **maximum of 8 years full-time equivalent experience in research**
 - Years **outside research and career breaks** will not be counted

Maternity & Paternity

- Maternity: for each child born prior to the call deadline, 18 months will be deducted from the experience in research unless the applicant can document a longer parental leave prior to the call deadline.
- Paternity: for each child born prior to the call deadline, the documented time of parental leave taken until the call deadline will be deducted from the experience in research.

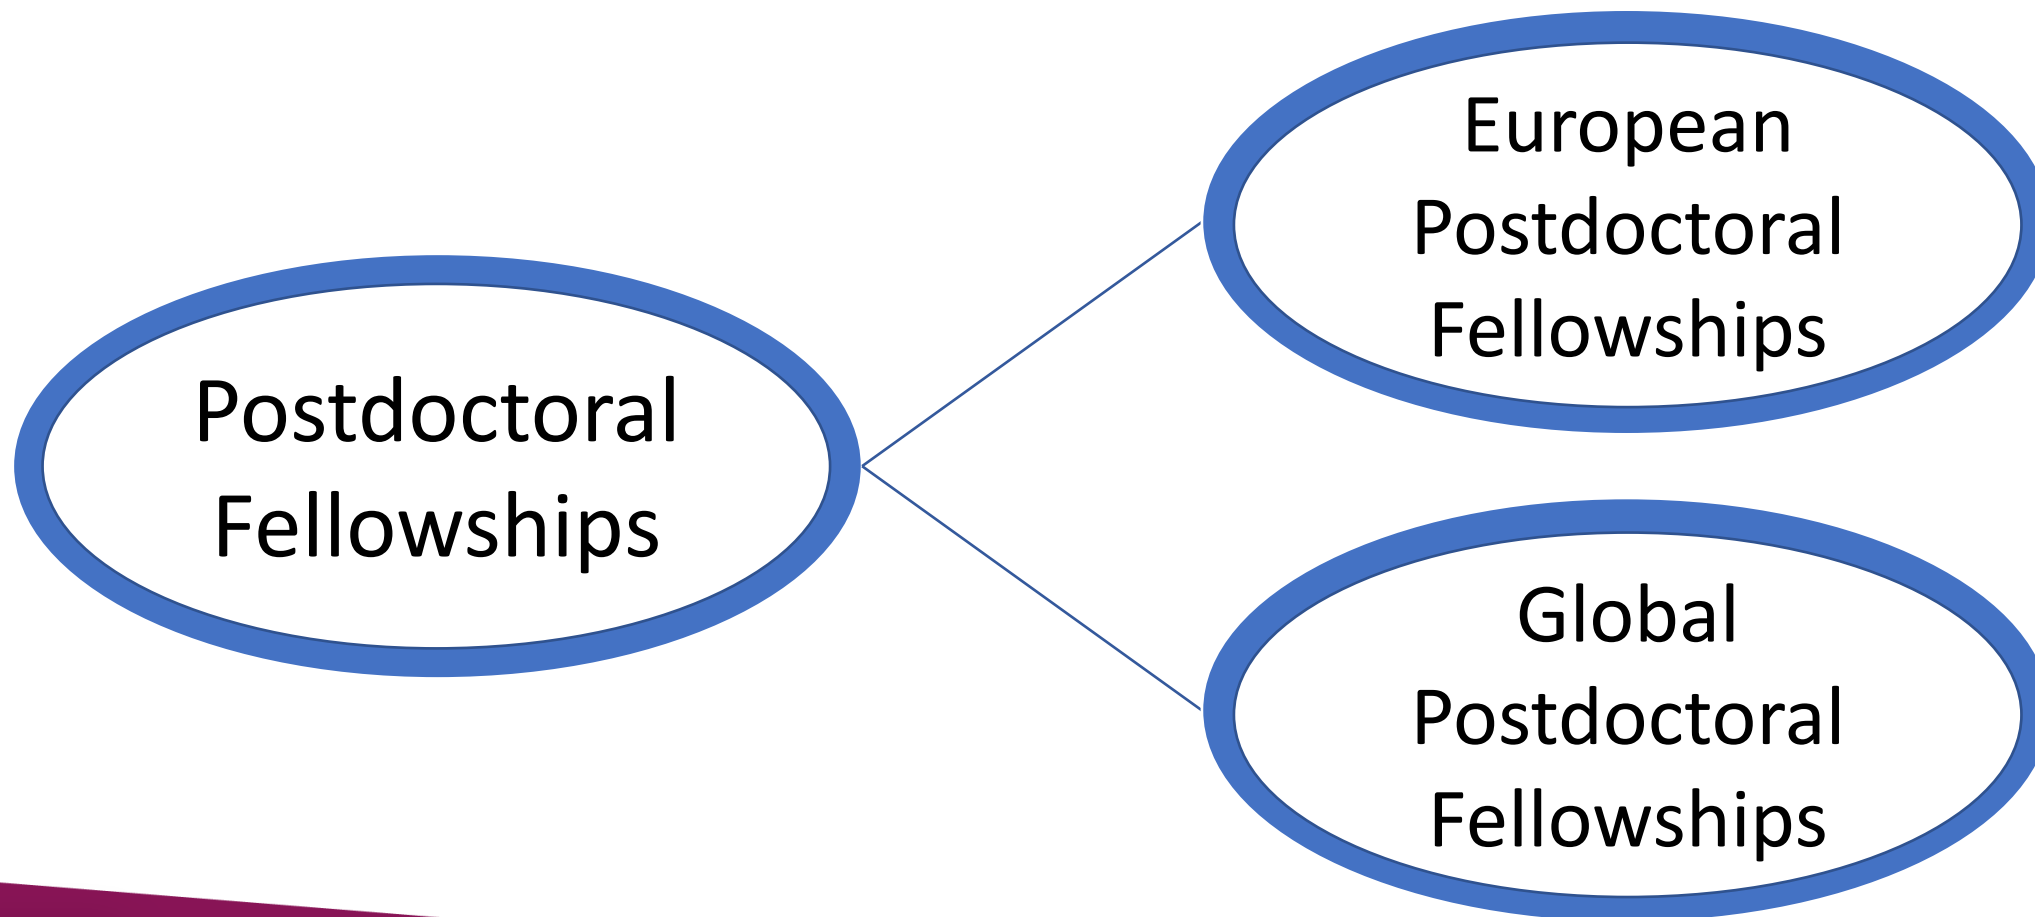

Mobility rule

- Recruited researchers must not have resided or carried out their main activity (work, studies, etc.) in the country of the beneficiary (for European Postdoctoral Fellowships), or the host organisation for the outgoing phase (for Global Postdoctoral Fellowships) for more than 12 months in the 36 months immediately before the call deadline.

FAQ

Under Marie Skłodowska-Curie Postdoctoral Fellowships (MSCA-PF), can a researcher apply with a host institution established in the United Kingdom?

 Need help?

Active

Only legal entities established in an EU Member State or Horizon Europe Associated Country are eligible for funding under the MSCA-PF action. Under Horizon Europe, the UK is treated as an Associated Country subject to the entry into force of the association agreement.

Association to Horizon Europe takes place through the conclusion of an international agreement between the EU and the non-EU country. Association agreement negotiations are currently ongoing with 18 countries including the United Kingdom. While negotiations are taking place, transitional arrangements apply under which the legal entities established in these countries are eligible to participate in the call for proposals. Therefore, institutions in the United Kingdom shall be treated in the evaluations as if they were based in an Associated Country from the launch date of the programme (subject to the entry into force of the association agreement with the United Kingdom by the time of signature of the grant agreement).

considered for funding

Excellence	Impact	Quality and efficiency of the implementation
Quality and pertinence of the project's <u>research and innovation objectives</u> (and the extent to which they are ambitious, and go beyond the state of the art)	Credibility of the measures to enhance the <u>career perspectives</u> and employability of the researcher and contribution to his/her skills development	Quality and effectiveness of the <u>work plan</u> , assessment of risks and appropriateness of the effort assigned to work packages
Soundness of the proposed <u>methodology</u> (including interdisciplinary approaches, consideration of the gender dimension and other diversity aspects if relevant for the research project, and the quality of open science practices)	Suitability and quality of the measures to maximise expected outcomes and impacts, as set out in the <u>dissemination and exploitation plan</u> , including <u>communication activities</u>	Quality and capacity of the host institutions and participating organisations, including <u>hosting arrangements</u>
Quality of the supervision, <u>training</u> and of the two-way transfer of knowledge between the researcher and the host	The magnitude and importance of the project's contribution to the expected scientific, societal and economic impacts	
Quality and appropriateness of the researcher's professional experience, competences and skills

Evaluation panels

In Postdoctoral Fellowships, proposals will be evaluated by one of eight 'main evaluation panels':

- Chemistry (CHE),
- Social Sciences and Humanities (SOC),
- Economic Sciences (ECO),
- Information Science and Engineering (ENG),
- Environment and Geosciences (ENV),
- Life Sciences (LIF),
- Mathematics (MAT),
- Physics (PHY).

Each panel will establish two ranked lists, one for European and one for Global Postdoctoral fellowships.

Distribution of budget

- European and Global Postdoctoral Fellowships
- The distribution of respective available funds will be proportional to the number of eligible proposals received in each main evaluation panel.

MSCA Postdoctoral Fellowships	Contributions for the recruited researcher per person-month					Institutional contributions per person-month		unit
	Living allowance	Mobility allowance	Family allowance (if applicable)	Long- term leave allowance (if applicable)	Special needs allowance (if applicable)	Research, training and networking contribution	Management and indirect contribution

* your proposal can have the same score as the cut off score yet not be funded, due to additional priorities (as defined in Work Programme) and the ex-aequo ranking decisions by the Panel.

How to interpret this table

The percentage of proposals above the overall threshold and with a given score or higher is shown per ranking list. Green shows the funding range. Proposals below the overall threshold are shown separately and are not part of the cumulative total.

For example:

-in the EF-PHY ranking, 21.61% of all eligible proposals submitted in this ranking list scored 90 or higher. The funding cut off is 92.2.

-in the GF-SOC ranking, 30.23% of all eligible proposals submitted in this ranking list scored less than the threshold (70) and were rejected.
