

**AN INTERDISCIPLINARY DOMAIN**

**HERITAGE SCIENCE**

Brings together STEM and SSH to better knowledge, conservation, and appreciation of cultural heritage

**VISION**

E-RIHS vision is to ensure that heritage remains meaningful, relevant, and accessible in a diverse and changing world for the benefit of present and future citizens. E-RIHS uncovers the cultural and historical layers embedded in heritage, seeks optimal ways to preserve it by understanding material changes, and harnesses its potential as a source of socioeconomic and environmental sustainability.
