SMEs TRAnstition for a European Circular tourism Ecosystem

TRACE – SMEs PRE-ASSESSMENT QUESTIONNAIRE *TEMPLATE*

TRACE stands for “SMEs TRAnstition for an European Circular tourism Ecosystem”. It aims to enhance and monitor the sustainability performance of SMEs in the tourism sector, boosting their awareness, development and capacity to develop and integrate sustainable innovations in their business practice, making sustainability, resilience and circularity as key factors of competitiveness in the rapidly changing global tourism market scenario.

Through the **TRACE Open Call for SMEs Support**, the **TRACE SMEs Support Programme** will involve directly at least 100 SMEs in 5 European countries (Italy, Belgium, Spain, Romania and Cyprus) that will be projected to become “champions” of sustainability and inspire other micro and small-sized enterprises in their local contexts.

The programme activities will focus on sustainability aspects of tourism SMEs such as analysis of Greenhouse Gases (GHG) emissions, development of sustainability plans, support for application to EU eco-label and other certification processes, and monitoring of a set of key indicators for the level of sustainability and circularity. The project pays attention to the enhancement of skills and capacities of the involved SMEs internal staff, through training and capacity building activities, and a series of direct support services dedicated to certification processes, sustainable finance and innovation management.

TRACE project will follow a step-by-step and learning-by-doing approach in the programme to bring also the small enterprises, with less qualified staff, to manage a process of innovation and implement relevant measures to reduce their environmental impacts while increasing economic resilience. The TRACE SMEs Support Programme aims at supporting tourism SMEs in taking their first steps towards the sustainability journey, starting a process which has a large potential to bring benefits not only to the single enterprise but to the entire territory/society, paying attention to nature, communities and cultural diversity.

TRACE is a project co-funded by the European Commission under the Single Market Programme (SMP/SME Pillar), which aims to provide sustainability services such as strategies, training activities and tools for tourism SMEs willing to innovate their business models and enhance their performance from a sustainability and circularity perspective. It is funded under grant agreement No. 101085893.

Within the TRACE project, funded under Single Market Programme (G.A 101085893), this questionnaire is aimed at understanding your needs in terms of training and business support. The final goal is to tailor TRACE Support Programme activities to best suit your organization towards the sustainability and circular economy transition in the tourism sector.

SMEs TRAnSition for a European Circular tourism Ecosystem

Company data

Organization name	
Website	
Year of foundation	
Contact person	
Role	
Email	
Country	

Part 1. General Information

1. What is your company size in terms of number of employees and what is your annual sales turnover?

Category	Company size (N° of employees)	Annual sales turnover	SELECT YOUR OPTION
Medium	<250	< € 50 m	
Small	<50	< € 10 m	
Micro	<10	< € 2 m	

2. Which main activity do you perform? Please, indicate your specific NACE subcodes

NACE code	SELECT YOUR OPTION	Please, specify the NACE subcodes
I55 – Accommodation		
I56 - Food and beverage service activities		
N79 - Travel agency, tour operator and other reservation service and related activities		
R - Arts, entertainment and recreation		
Other (specify): _____		

3. Is your company a start-up? What is your main business activity?

Yes

If yes, what is your main business activity? _____

No

TRACE

SMEs TRAnSition for a European Circular tourism Ecosystem

Part 2. Human resources capacity

4. Please, indicate the number of staff members in your company and their main function.

	Permanent personnel	Seasonal personnel
Management		
Accounting		
Human Resource		
Marketing and sale		
Sustainability		
Guests service		
Communication and social media		
Information Technologies		
Food and beverage		
Cleaning and/or fatigue personnel		
Other		

5. How many members of staff speak fluently English, including you? Please, indicate the number

6. As all the TRACE activities will be performed using English, is the language a barrier to participating in projects activities?

- Yes
 No

Part 3. Innovation and sustainability

7. Have you invested in innovation in the last three years?

- Yes
 No

8. If yes, what kind of innovation have you adopted and implemented?

Innovation activity	Select one or more options
Streamlining current processes to increase efficiency	
Involving customers in the development of new services	
Enhancing brand image and attractiveness through website and social media	
Increasing sale through digital and online reservation system	
Managing waste through new technology	

TRACE

New environmental sustainability programme	
Others _____	

9. Which are the main motivations for innovation?

Motivation for innovation	Select one or more options
Increase efficiency	
Increase the sales and revenue	
Improve customer satisfaction	
Improve environmental sustainability	
Other, please specify _____	

10. Which factors have contributed the most to adoption and implementation of innovation?

Drivers for innovation	Select one or more options
Access to financial resources	
Collaboration with qualified suppliers	
Internal competences and human resources	
Digital/technological awareness	
Participation to European and national projects (Horizon 2020, ...)	
Access to National and regional innovation funds	
Other, please specify _____	

11. Which factors could you consider as obstacles to innovation?

Obstacles to innovation	Select one or more options
Access to financial resources	
Lack of qualified suppliers	
Lack of qualified personnel	
Low digital / technological awareness	
Information overload	
Other, please specify _____	

12. Referring to the previous question, which tools can be used to overcome the obstacles?

Tools	Select one or more options	Comments (optional)
Financial support mechanisms		
Collaboration with qualified suppliers		
Training programmes		

TRACE

SMEs TRAnSition for a European Circular tourism Ecosystem

Selected and targeted information & communication		
Other, please specify _____		

13. Does your company have a sustainability plan?

- Yes
- No

If yes, does your company have a sustainability manager?

- Yes
- No

14. Does your company already have expertise in one of these areas? If yes, what is the level of knowledge (In-depth, medium, Sufficient, poor).

Thematic area	Level of expertise			
	In-depth	Medium	Sufficient	Poor
Application of Greenhouse Gas Protocol (GHG Protocol)				
Digitalization and integration of new technologies				
Ethical and gender equality issues				
Sustainability / environmental certification				
Others _____				

15. Does your company already use one of these tools and certifications?

Tools / Certifications	Select one or more options
LCA – Life Cycle Assessment	
EPD – Environmental Product Declaration	
Environmental Footprint methods	
OEF (Organisation Environmental Footprint)	
PEF (Product Environmental Footprint)	
Carbon Footprint assessment (CFP), Product Carbon Footprint (PFC)	
EU Ecolabel - European Union voluntary label for environmental excellence	
EU Eco-Management and Audit Scheme (EMAS)	
Sustainable Tourism Criteria – for Hotels and Tour Operators	

TRACE
